

PRESS RELEASE

FOR IMMEDIATE RELEASE

Hari Krishna Exports of India to Have 12 Galaxy / Solaris Systems In-house

Kfar Saba, Israel, 2 January 2014 – Singapore Exchange Mainboard-listed Sarin Technologies Ltd ("Sarin") (U77:SI), a worldwide leader in the development, manufacturing, marketing and sale of precision technology products and services for the evaluation, planning, processing, measurement and grading of rough and polished diamonds and gems, is pleased to announce that in the quarter just ended Hari Krishna Exports Pvt. Ltd. Ltd ("Hari Krishna Exports") placed orders for four additional systems, which will, upon completion of their delivery this month, bring to twelve the number of Galaxy™ and Solaris™ systems (of various models) they have in use, thus becoming our second customer to have over ten systems installed in-house.

Mr. Savjibhai Dholakia, Chairman of Hari Krishna Exports, a leading manufacturer in the global diamond industry and a highly reputable DTC sightholder, said, "Our experience has clearly shown that the Galaxy™ and Solaris™ automated inclusion mapping systems, when paired with Sarin's newest planning offering, the Advisor™ 5.0, provide the best rough diamond planning results. Thus, we all but guarantee optimal rough diamond utilisation, the best possible quality results and the highest yield and net value of our polished diamonds, all while minimising the time involved in the planning process and precluding human errors. We believe that our continued investment in these systems will further enhance our franchise and bolster our position as one of the industry's leading polished diamond manufacturers."

Uzi Levami, Chief Executive Officer of Sarin, stated, "The unmatched technology, the accuracies, automation and ease of use provided by Sarin's products from the Galaxy™ / Solaris™ family of inclusion scanning and mapping systems and the Advisor™ planning software offer diamond manufacturers an exclusive and comprehensive solution to maximise the value of their output. With the now released Galaxy™ Ultra, providing microscope-level automated and comprehensive inclusion mapping, Sarin has added a completely new tool to the rough diamond scanning and planning suite. We are honoured to have Hari Krishna Exports expressing such a resounding vote of confidence in our unique solutions, as manifested yet again by their latest orders."

About Hari Krishna Exports:

Established over two decades ago on the rock solid grounds of faith, transparency and fair pricing, Hari Krishna Exports earned its stripes from a commitment to consistent quality, its policy of fair and fixed pricing, timely deliveries and, last but not the least, a broad range of diamonds offered in a spectrum of cuts and carats sizes. Faith, rarely seen but often felt, a trust, confidence and conviction that bonds one entity with another in the most inseparable of ways is a way of existence that has taken Hari Krishna Exports to high altitudes - a growth process that has brought the company to a colossal manufacturing capacity of over 40,000 carats per month, exports to seventy plus countries worldwide and recognition of 11 consecutive excellence awards by GJEPC.
